CATERING AND CUISINE

Craveiral Farmtable
by Belong Growing and Tasting

A **gastronomic concept** based on seasonal organic ingredients of local origin that culminate in an elegant, unique, creative and refined cuisine.

We take the concept “from farm to table” to the table, where 70% of the ingredients come from our garden and the remaining 30% from local producers.

Our menus are inspired by traditional Alentejo cuisine and in the *farm to table* concept, the flavours of south-west coast vibrate in an unlikely elegant dance that combines contemporary with creativity, and paired with a careful selection of premium wines.
